Data analyst with an editorial leadership background, building reporting systems and tools that make complex information useful. At Furniture Bank, built a BigQuery data warehouse, departmental dashboards, and a public SROI forecast calculator. Combines SQL and dimensional modeling with strong storytelling, synthesis, and the ability to explain findings clearly and simply to different audiences.

SKILLS

- **Technical:** SQL, BigQuery, dlt (Data Load Tool), ETL and ELT Pipelines, Dimensional Modelling, dbt, Cloud Run
- **Analytical:** Looker Studio, Tableau, Excel, Dashboard Design, KPI Definitions, Data Storytelling

WORK EXPERIENCE

Furniture Bank

May 2026 – Present

AI-Forward Data Analytics Associate (Contract)

Toronto, ON

- Built a BigQuery warehouse to replace reporting originally maintained in manual spreadsheets for over a decade, integrating Salesforce, Typeform, FundraiseUp, ActiveCampaign and GA4. Used Claude Code for AI-assisted development and validated SQL models against source data.
- Designed Looker Studio dashboards supporting leadership, sales, operations, impact and fundraising, translating departmental reporting needs into views of performance against targets, lead conversion, pickup revenue, service reach, and operational capacity.
- Turned an existing Social Return on Investment (SROI) methodology into a public forecast calculator with CAD/USD support, input validation and a custom PDF export; built supporting Cloud Run and BigQuery infrastructure.
- Corrected a misleading sales funnel by following the same inquiry cohort through booking and completion, preserving unconverted leads and distinguishing bookings from completed-pickup revenue.
- Built a reusable reporting model for Ottawa and Winnipeg, accommodating local timezones, different source structures and missing data coverage within one shared dashboard.
- Guided individuals and families furnishing their homes, adapting recommendations to household needs, room sizes and preferences while preserving dignity in sensitive circumstances.

VIDA Select

Jun. 2021 – Jan. 2025

Senior Editor and Team Lead

Remote

- Ranked first for speed and accuracy and was the only employee retained in my department through three company-wide layoffs. Promoted from Profile Writer to Junior Editor to Senior Editor and Team Lead.
- Synthesized three-hour client interviews and matchmaking notes into persuasive profiles, identifying values, motivations and distinctive personal traits. Trusted as the primary editor for high-profile client escalations requiring discretion, interpersonal insight and nuanced interpretation of feedback.

WRITING EXPERIENCE

The Spill Magazine

May 2022 – Aug. 2023

Contributor and Author (Volunteer)

Remote

- Wrote album and concert reviews and conducted artist interviews for an independent music publication, covering acts including PJ Harvey, Hurray for the Ruff Raff, and She Wants Revenge.

EDUCATION AND PROJECTS

Queen's University

June 2026

Bachelor of Arts with Distinction, English Language and Literature • GPA: 3.7 — Dean's List

Kingston, ON

Northwind Traders: End-to-End Dimensional Data Warehouse

Sep. 2025 – Nov. 2025

Tools: BigQuery, dbt, Tableau, SQL, Kimball Methodology

- Completed an analytics engineering course, built a dimensional data warehouse using Kimball star schema, optimized query performance through a denormalized reporting layer, and added Tableau dashboards beyond course requirements.
